CARE
COMFORT &
COMMITMENT

NOVA MEDICAL DEVICES

Our Vision,

To be a growth oriented company with a firm commitment of caring for quality and environment.

Mission,

Our mission is increase current capacities and its downstream operation to achieve economics of scale and to establish ourselves as a producer quality product through continual improvement in performance, meeting with customer's expectation and strive for developing value added option from side stream by products.

NOVA GROUP OF INDUSTRIES

ORGANIZATION: Company was established in 2005 is actively involved in manufacturing and supplying of medical disposable surgical products to meet the demand of health care industries as per Indian standards and international standards with small base and broad spectrum vision.

By virtue of experience company has mastered the product and gathered expertise in testing of medical surgical disposable products. Company is in position to meet the customer's requirement in terms of product quality, range & Quantity. Company has a term of competent personnel to do their functions and thus deliver the products to the customer's satisfaction. Company has already earned recognition about their capabilities to make product as per customer's specifications and to any specific demand.

THE QUALITY AIM: Company is provide best quality product for best human health by overview of the structure of the Quality Management System. Our quality control standards have achieve us the ISO, CE & Certification.

COMMITMENT: The Organization is committed to understand the customer's requirement including those of statutory, regulatory, delivery and the post delivery activities to quality of products with Quality Management System.

QUALITY POLICY: We shall achieve customer satisfaction by means of establishing and sustaining an effective quality management system that ensure to provide customer requirement with Quality Assurance.

- Reliable quality of disposable product at competitive rate.
- By introducing new range of surgical products.
As a customer focused company we shall be able to understand changing customer requirements time to tome and continuously improve our quality management system.

INFRASTRUCTURE: The infrastructure requirement such as the Land, Building, Workspace, Utilities equipments. Communications facilities are sophisticated, dedicated and modernized.

We have

- Class 10,000 Assembly Room
- Class 1,00,000 Assembly Room
- In house Quality control testing and R&D department
- Modernized E.T.O. Sterilization plant
- Specification work environment is maintained for the production as per statutory requirement and regulatory requirement.

QUALITY CONTROL & MANAGEMENT SYSTEM :

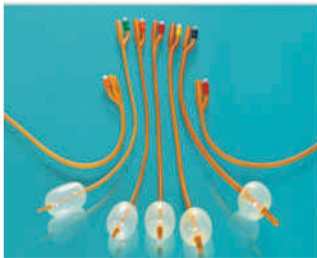

Product realization has planned and developed the process needed through quality management system like.

- All manufacturing process under hygienic condition.
- In coming raw material testing before it is used in production process.
- In process testing in production quality control and checked at all levels.
- Inspection quality control & checked.
- Finish product quality control testing. It include physical, chemical & biological testing as per statutory requirement and regulatory requirement.

IMPROVEMENT :

The Management of the company shall continuously improve the Quality Management System on basis of following points during the Management.

- Quality policy with quality objectives.
- Analysis of products ● Corrective Action
- Preventive action ● Customer feed back

Infusion &

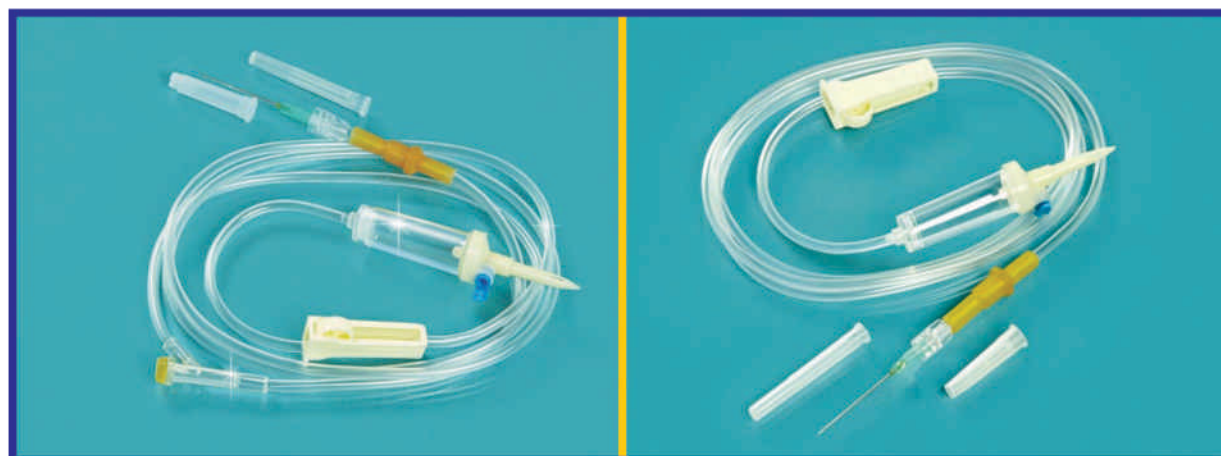

Infusion & Transfusion

Super Nova Infusion Set

With Built in Air vent, "Y" Connection,
Bulb Latex, Luer Lock.

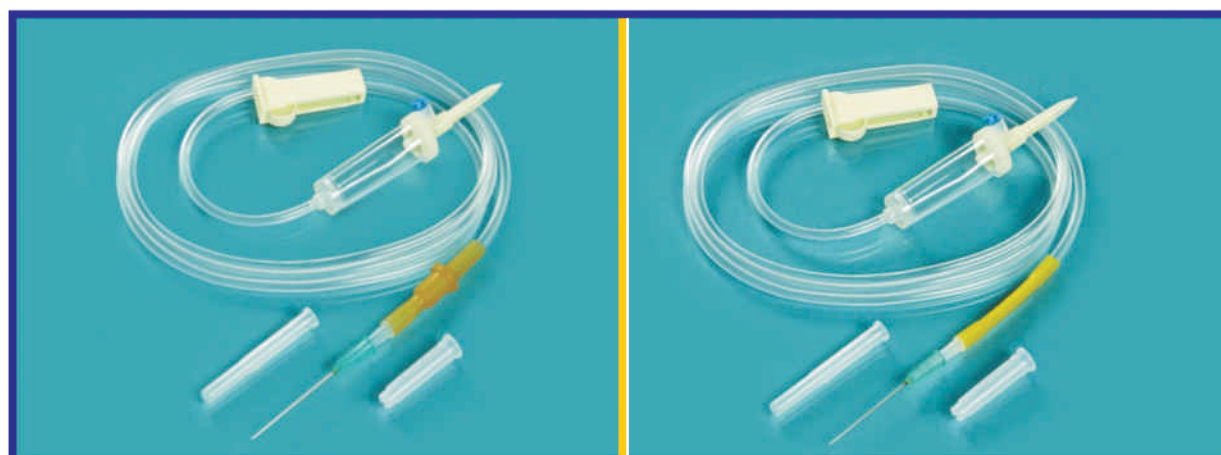

- Super smooth kink resistance tube.
- Very Efficient roller controller for accurate flow rate.
- Clear, Transparent & Flexible built in air vent Chamber.
- Built-on T connector Injection site for extra Medication.
- Self sealing Latex / Latex Free bulb for easy flushing.
- Luer locking for secure connection.
- Needle size G : 21.

- Super Smooth Kink Resistant Tube.
- Very Efficient roller Controller For Accurate Flow rate.
- Clear, Transparent & Flexible Built in Air Vent Chamber.
- Self sealing Latex / Latex Free bulb for easy flushing.
- Luer Locking for Secure Connection.
- Needle size G : 21.
- Sterile / Disposable / Individual Packed.

Super Nova Infusion Set

With Built in Air vent, Bulb Latex

- Clear, Transparent & Flexible Built in Air Vent Chamber.
- Very efficient roller controller for accurate flow rate.
- Self sealing Latex / Latex Free bulb for easy flushing.
- Super Smooth Kink resistant Tube.
- Needle size G : 21.
- Sterile / Disposable / Individual Packed.

- Clear, Transparent & Flexible Built in Air Vent Chamber.
- Very Efficient roller Controller For Accurate Flow rate.
- Latex / Latex free Tube for flushing.
- Super Smooth Kink Resistant Tube.
- Needle size G : 21.
- Sterile / Disposable / Individual Packed.

Super Nova Infusion Set

Without Air vent, Bulb Latex

- Super smooth kink resistance tube.
- Clear, Transparent & Flexible Chamber.
- Very efficient roller controller for accurate flow rate.
- Self sealing Latex / Latex Free bulb for easy flushing.
- Needle size G : 21.
- Sterile / Disposable / Individual Packed

Super Nova Infusion Set

Without Air vent, Tube Latex

- Super Smooth Kink resistant tube.
- Clear, Transparent & Flexible chamber.
- Very Efficient roller Controller For Accurate flow rate.
- Latex / Latex free Tube for flushing.
- Needle size G : 21.
- Sterile / Disposable / Individual Packed.

www.novamedicaldevices.com

Super Nova Infusion Set

Without Air vent, Bulb Latex

- Super smooth kink resistance tube.
- Very Efficient roller controller for accurate flow rate.
- Clear, Transparent & Flexible Chamber.
- Self sealing Latex / Latex Free bulb for easy flushing.
- Needle size G : 21.
- Sterile / Disposable / Individual Packed
- Pack / 50 pcs. printed box packing.

Super Nova Infusion Set

Without Air vent, Tube Latex

- Super Smooth Kink Resistant tube.
- Very Efficient roller Controller For Accurate flow rate.
- Clear, Transparent & Flexible chamber.
- Latex / Latex free Tube for flushing.
- Needle size G : 21.
- Sterile / Disposable / Individual Packed.

Infusion Set [MICRODRIP]

With Built in Air vent, 'Y' Connection,
Bulb Latex, Luer lock

- Super Smooth Kink resistant tube.
- Very efficient roller controller for accurate flow rate.
- Clear, Transparent & Flexible chamber.
- Built-in 'Y' connector injection site for extra medication.
- Self sealing Latex / Latex Free bulb for easy flushing.
- Luer Locking for secure connection.
- Needle size G : 23.
- Sterile / Disposable / Individual Packed.

Infusion Set [MICRODRIP]

Without Air vent Bulb Latex

- Super Smooth Kink resistant tube.
- Very Efficient roller Controller For accurate Flow rate.
- Clear, Transparent & Flexible chamber.
- Self sealing Latex / Latex Free bulb for easy flushing.
- Luer Locking for secure connection.
- Needle size G : 23.
- Sterile / Disposable / Individual Packed.

Infusion Set [MICRODRIP]

Without Air vent, Tube Latex

- Super smooth kink resistance tube.
- Very efficient roller controller for accurate flow rate.
- Clear, Transparent & Flexible chamber.
- Latex / Latex free Tube for flushing.
- Luer Locking for secure connection.
- Needle size G : 23.
- Sterile / Disposable / Individual Packed.

Blood Administration Set

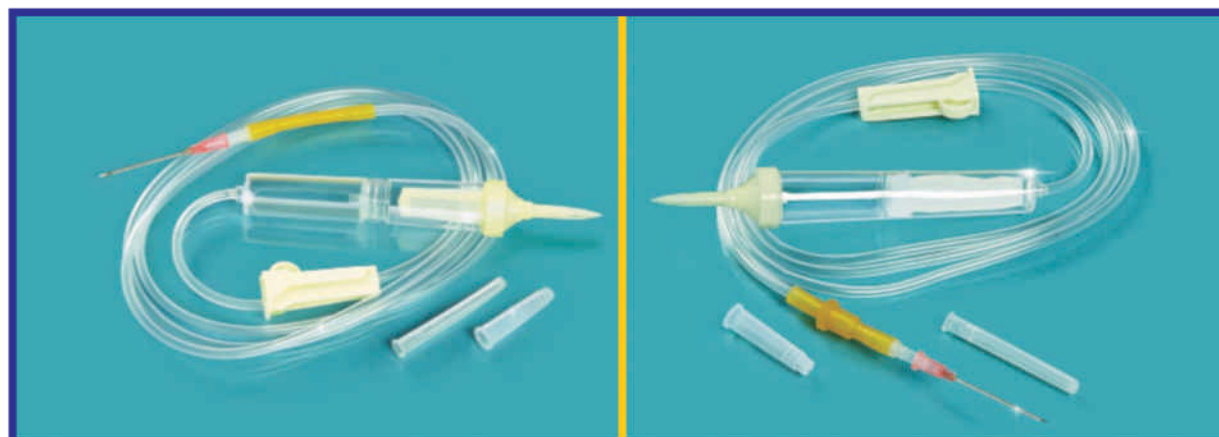

(Double Chamber), Bulb Latex.

- Super Smooth kink resistant tube.
- Very efficient roller controller flow rate.
- Clear, Transparent & flexible double drip chamber.
- Self sealing Latex / Latex Free bulb for easy flushing.
- Needle size G : 18.
- Sterile / Disposable / Individual Packed.

Blood Administration Set (Double Chamber), Tube Latex.

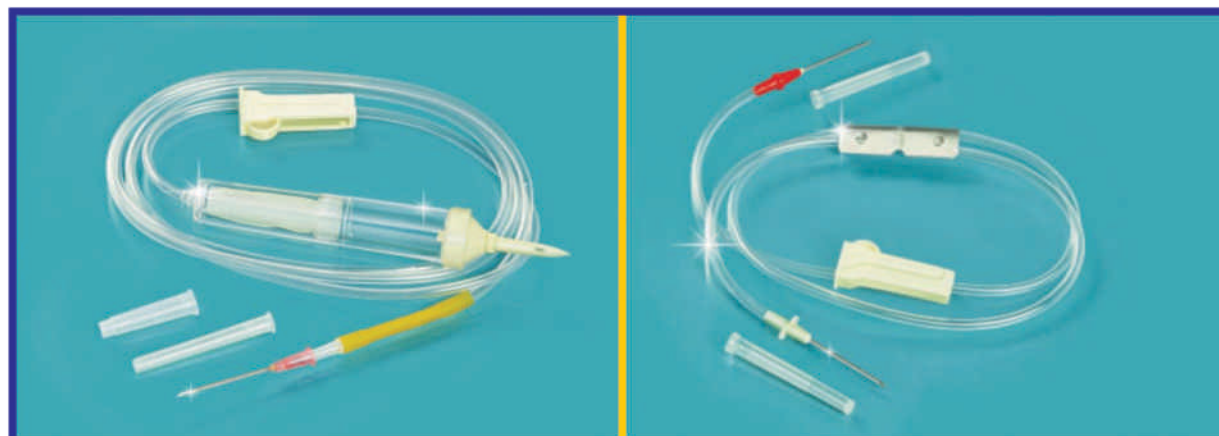

- Super Smooth Kink resistant tube.
- Clear, Transparent & Flexible double drip chamber.
- Very efficient roller controller for accurate flow rate.
- Latex / Latex free Tube for flushing.
- Needle size G : 18.
- Sterile / Disposable / Individual Packed.

Blood Administration Set (Single Chamber), Bulb Latex.

- Super Smooth Kink resistant tube.
- Clear, Transparent & Flexible chamber.
- Very efficient roller controller for accurate flow rate.
- Self sealing Latex / Latex Free bulb for easy flushing.
- Needle size G : 18.
- Sterile / Disposable / Individual Packed.

Blood Administration Set (Small Single Chamber), Tube Latex.

- Super Smooth Kink resistant tube.
- Very efficient roller controller for accurate flow rate.
- Clear, Transparent & Flexible chamber.
- Latex / Latex free Tube for flushing.
- Needle size G : 18.
- Sterile / Disposable / Individual Packed.

Blood Administration Set With Regulator

- Super Smooth kink resistant tube.
- Very efficient roller controller for accurate adjustment.
- Needle size G : 16. extra sharp needle for smooth and effortless vein puncture.
- Sterile / Disposable / Individual Packed.

Disposable Hypodermic Needle

Disposable Syringe (With Needle)

www.novamedicaldevices.com

- Color coded hub by size for easy identification.
- Large inner diameter, high flow.
- Virtually painless injection.
- Material: High quality stainless steel.
- Semi transparent needle-hub for cleanness of flashback.
- Needle hub – Made of medical grade polypropylene.
- Sterile / Disposable / Individual Blister Packed.

- Sufficiently transparent barrel allows easy measurement of the volume contained in the disposable syringe friction free.
- With disposable Hypodermic Needle.
- Made from Medical grade Transparent Polypropylene.
- Friction free movement of plunger ensures proper vacuum and no dead space.
- Consist of: Barrel, Plunger, Standard Piston.
- In superior quality by high accurate moulds.
- Sterile / Disposable / Individual Packed / Printed Box Pack.

Nova Disposable Syringe
(Without Needle)

Nova Intravenous Cannula
(Adult & Pediatric)

- Made from Medical grade Transparent Polypropylene.
- Consist of: Barrel, Plunger, Standard Piston In superior quality by high accurate molds.
- Sufficiently transparent barrel allows easy measurement of the volume contained in the disposable syringe.
- Friction free Movement of Plunger ensures proper vacuum & no dead spot.
- Sterile / Disposable / Individual Packed / Printed Box Pack.

- Molded cannula tip ensures smooth & less traumatic cannulation.
- Kink resistant PTFE Teflon cannula has extremely smooth inner and outer surface to ensure minimum trauma and smooth flow.
- Injection port with non return valve is provided for additional medication.
- Transparent flash back chamber allows immediate detection of blood.
- Color coded by size for easy identification.
- Sterile / Disposable / Individual blister packed / Printed Box Packing.

Veinfix I.V. Cannula Fixation

Nova A. V. Fistula Needle

www.novamedicaldevices.com

- Cannula Fixer Elastic Bandage Dressing designed to secure the catheter in challenging I.V. Application.
- 'U' Shaped design to secure the IV cannula in Place.
- Semi Permeable Adhesive dressing B. P.
- Stick well, yet remove easily.
- Sterile / Disposable / Individual Packed.
- Super smooth kink resistant tube.
- Flexible wings for easy gripping & fixation.
- The stainless steel needle with ultra thin wall & sharp beveled to minimize trauma to the patient.
- Needle with back eye to minimize interruption in blood flow.
- Color coded wings for easy identification of needle size.
- Sterile / Disposable / Individual Packed / Printed Box Packing.

Nova Scalp Vein Set

Super Nova Measured Volume

www.novamedicaldevices.com

- Siliconized and thin walled high quality needle for atraumatic insertion.
- Butterfly wings facilitate for better and easy fixation.
- Super smooth kink resistant tube.
- Designed to provide rapid venous access, for patient comfort during infusion.
- Color coded butterfly wings by size for easy identification.
- Sterile / Disposable / Individual Blister Packed.
- Efficient roller controller for better flow control.
- Special Bevelled strong spike for smooth penetration.
- Specially designed floating auto shut off valve acts as floating indicator and automatically shut off the drain path when the chamber gets empty to prevent air trapping in the fluid line.
- Flexible, Transparent & soft cylindrical measured volume chamber of 150 ml.
- Available with or without 'Y' connection.
- Soft and Kink Resistant tube.
- Bulb Latex or Tube latex for easy flushing.
- Separate plug for extra medication and continuous change over.
- Needle size G 23.
- Sterile / Disposable / Individual Packed.

Super Nova Measured Volume Burette Set [110 ml.]

With "Y" Connection, with Hanger, Bulb Latex

- Efficient roller controller for better flow control.
- Specially designed floating auto shut off valve acts as floating indicator and automatically shut off the drain path when the chamber gets empty to prevent air trapping in the fluid line.
- Flexible, Transparent & soft cylindrical measured volume chamber of 110 ml.
- Special Bevelled strong spike for smooth penetration.
- Available with or without Y connection.
- Soft and Kink Resistant tube.
- Bulb Latex or Tube latex for easy flushing.
- Separate plug for extra medication and

Nova Peritoneal Dialysis Transfusion set.

- Special designed for Y shaped transfusion set for administrating dialysis solution.
- Soft and Kink Resistant tube.
- Provided with two upper control clamp to facilitate the attractive change of solution bottles.
- Clear, Transparent & Flexible chamber.
- Top lower control clamps help for easy input and drainage of solutions.
- Sterile / Disposable / Individual packed.

Nova Extension Tube [High Pressure & Low Pressure]

- Male luer lock connector at one end and female luer lock connector at other end.
- Soft & Kink Resistant PVC Tube.
- Tube length : 25,50,100,150,200 cms.
- Available with or without clamp.
- With or Without "Y" Connection.
- Sterile / Disposable / Individual Packed.

Nova IV Flow Regulator With Extension Tube

- Male luer lock connector at one end and female luer lock at other end.
- Soft & kink resistant PVC Tube.
- Precise flow rate control of IV fluids with range of 5 to 250ml. / hr.
- Also available with "Y" Connection for extra medication.
- Sterile / Disposable / individual packed.

www.novamedicaldevices.com

www.novamedicaldevices.com

Three Way Stopcock

- Fully transparent body made of medical-grade polycarbonate allows visualization of flow of fluids.
- Universal 6% taper on luer allows connection with a wide variety of standard medical devices.
- 3-Way stop cock facilitates multiple lines through single IV access.
- Tested for smooth, laminar and leak-proof.

(Managing Director)

novο -10

[Urine Collecting Bag With Hanger]

- Manufactured from soft clinical grade PVC sheet.
- Super smooth kink resistant tube.
- Specially designed hook facilities for carrying, handling and holding the tube in upright position.
- Drainage Outlet System.
- Modified, Enlarged and trapped Connector.
- Facilitates aseptic catheter.
- Capacity : 2000 ml. Approx.
- Sterile / Disposable / Individual poly pack / printed Box Packing.

novο -10

[Urine Collecting Bag Regular]

- Manufactured from soft clinical grade PVC sheet.
- Super smooth kink resistant tube, made from medical grade PVC with connector.
- Non returnable valve and drainage outlet.
- Provided with hanging & carrying system.
- Capacity : 2000 ml. Approx.
- Sterile / Disposable / Individual packed

novο -10

[Urine Collecting Bag With Hanger]

novο -10

[Urine Collecting Bag With Bottom outlet with Hanger]

- Manufactured from soft clinical grade PVC sheet.
- Super smooth kink resistant tube.
- Modification with direct bed attachment specially designed molding hanger system for carrying & hanging arrangement.
- Efficient non return valve prevents the back flow of bacteria migration.
- Bottom outlet allows easy emptying.
- Provided with air vent
- Capacity : 2000 ml. Approx.
- Sterile / Disposable / Individual poly pack / printed Box Packing.

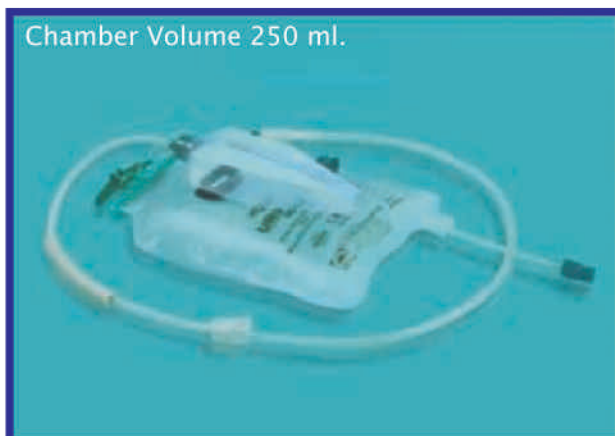

novο-nano

[Paediatric Urine collecting Bag]

- For short term Urine collection.
- Use of hygiene adhesive for fixation minimum risk of allergy and injuries.
- Capacity : 100 ml. Approx.
- Sterile / Disposable / Individual Packed.

Nova Uro Scale [Urine Collecting Bag]

Chamber Volume 250 ml.

- Manufactured from Medical grade material.
- Designed for accurate measurement of hourly urine output during examination of the patient.
- Urine bag attached directly with measured volume meter ensures auto over flow and convenience to empty the measured volume meter in the bag.
- Manufactured from Medical grade material.
- Urine Bag is manufactured from extra strong sheeting to withstand during the long period.
- Capacity : 2000 ml. Approx.
- Screw type bottom outlet is provided for easy & quick emptying of urine bag.
- Sterile / Disposable / Individual Packed.

Nova Nelaton Catheter

- Manufactured from Medical grade material.
- Atraumatic, soft rounded, closed tip with two lateral eyes for efficient drainage.
- Color coded plain connector for easy identification of size.
- Manufactured from non-toxic PVC medical grade.
- Universal funnel shape connector for easy connection to urine bag.
- X-Ray opaque line provided through out the length of catheter.
- Sterile / Disposable / Individual Packed.

Nova Tur Set

[Trans Urethral Resection]

NovaFoley Balloon Catheter

[3-way], [2, way Pediatric & Adult]

www.novamedicaldevices.com

- "Y" shaped set for endoscopic irrigation during trans urethral resection of prostate gland.
- Manufactured from Medical grade non toxic, non kinkable, PVC tube.
- Thumb operated clamps, help quick and smooth changeover of bottles.
- Proximal end fitted with flexible latex tubing for easy connection to endoscope.
- Sterile / Disposable / Individual Packed.
- Made of natural latex rubber.
- Urinary tract catheter for short or long term urine drainage.
- Hard non return valve ensures trouble free inflation and deflation of balloon.
- Urine output monitoring in a critically ill or injured person.
- Sterile / Disposable / Individual packed.

Nova Male External Catheter

Gibbon's Catheter [Male & Female]

www.novamedicaldevices.com

- Male catheter is specially designed for urine incontinence for day and night use in male patient.
- Provided with self adhesive coated strip for proper fixing on to the penis.
- Manufactured from pure latex for soft and gentle feel.
- Proximal end is designed for easy connection to urine bag, making it simple to use.
- Sterile / Disposable / individual Packed.
- Manufactured from soft none toxic, non irritant kink resistant medical grade PVC tube.
- The product is designed for long term urine drainage.
- Compatible with catheter lubrication.
- Provided with X-Ray opaque line through its length.
- Sterile / Disposable / Individual Packed.

Nova Female Catheter

Nova Rectal Catheter

- Proximal end is fitted with Universal Funnel shaped connector for safe connection to Urine bag.
- Colour coded plain connector for easy identification of size.
- Manufactured from soft none toxic, non irritant kink resistant medical grade PVC tube.
- Available with the option of Radio opaque line throughout the length for X-ray visualisation.
- Atraumatic, soft, rounded, closed tip with two lateral eyes for efficient drainage.
- Sterile / Disposable / Individual Packed.

- Proximal end is provided with Funnel shape connector for easy connection to the suction equipment.
- Color coded plain connector for easy identification of size.
- Manufactured from soft none toxic, non irritant kink resistant medical grade PVC tube.
- Available with the option of Radio opaque line throughout the length for X-ray visualization.
- Atraumatic, soft, rounded, closed tip with two lateral eyes for efficient drainage.

Anaesthesia

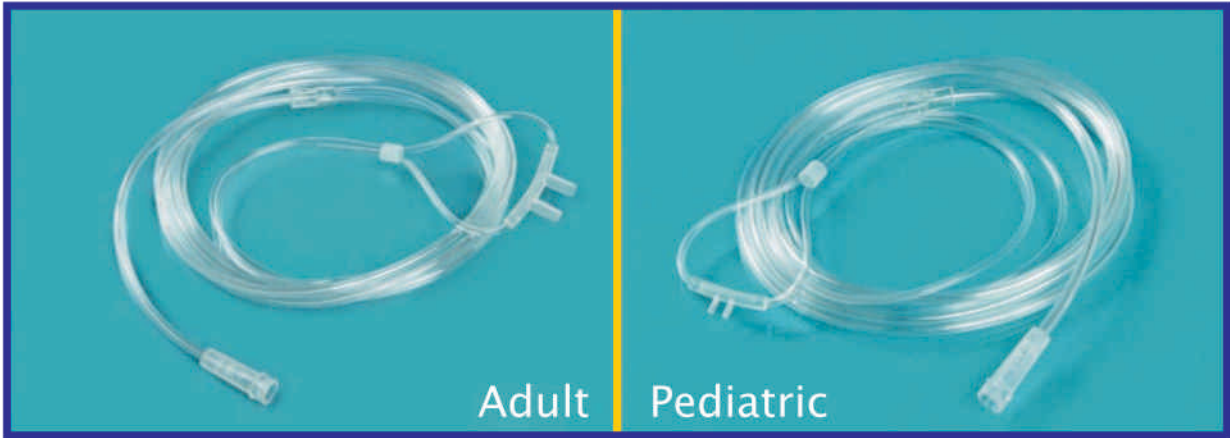

www.novamedicaldevices.com

[illegible]

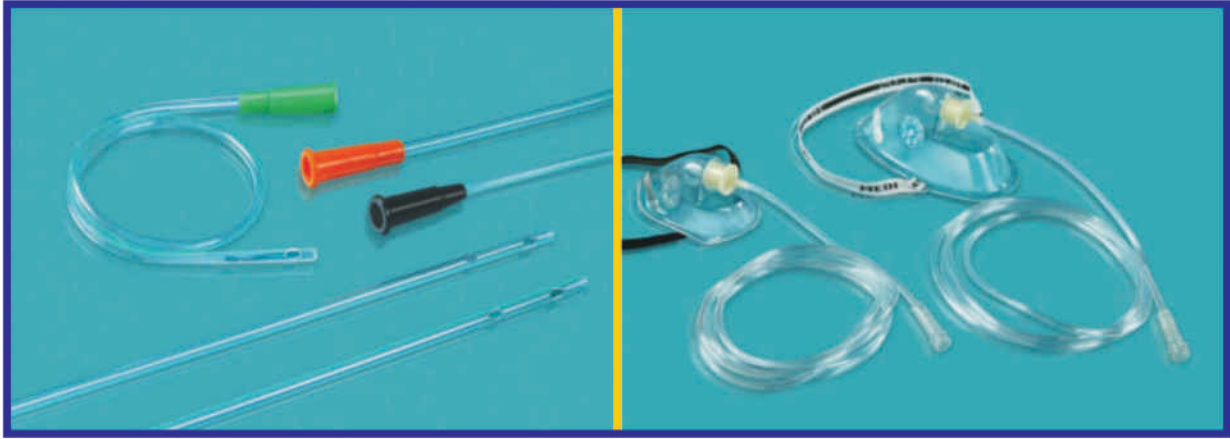

Nova Twin Bore Nasal Oxygen Set

- Soft twin prong nasal tips to ensure equal volume of oxygen to both air passages.
- Smoothly finished & adjustable nasal tips for maximum patient's comfort.
- Manufactured from Soft, non toxic PVC thus non irritating even in long term use.
- Star lumen tube ensures the supply of oxygen even if tube is accidentally kinked.
- Soft funnel shaped connector facilitates easy connection to oxygen source.
- Sterile / Disposable / Individual Packed

Nova Nasal Oxygen Catheter

- Soft and smooth open distal end facilitates non-traumatic insertion.
- Funnel connector at proximal end.
- Suitable for easy and efficient administration of oxygen.
- Color code by size for easy identification.
- Sterile / Disposable / Individual Packed.
- Moulded face mask has adjustable elastic strap and integrated nose clip for proper positioning of mask on the mouth and nasal area.
- Specially designed for convenient oxygen therapy.
- Made of clear, non-toxic PVC.
- Provided with long star lumen tube to ensure continuous flow of Oxygen.
- The tube has funnel shaped connector at the proximal end to facilitate simple & safe connection with the oxygen Tube.
- Sterile / Disposable / Individual Packed.

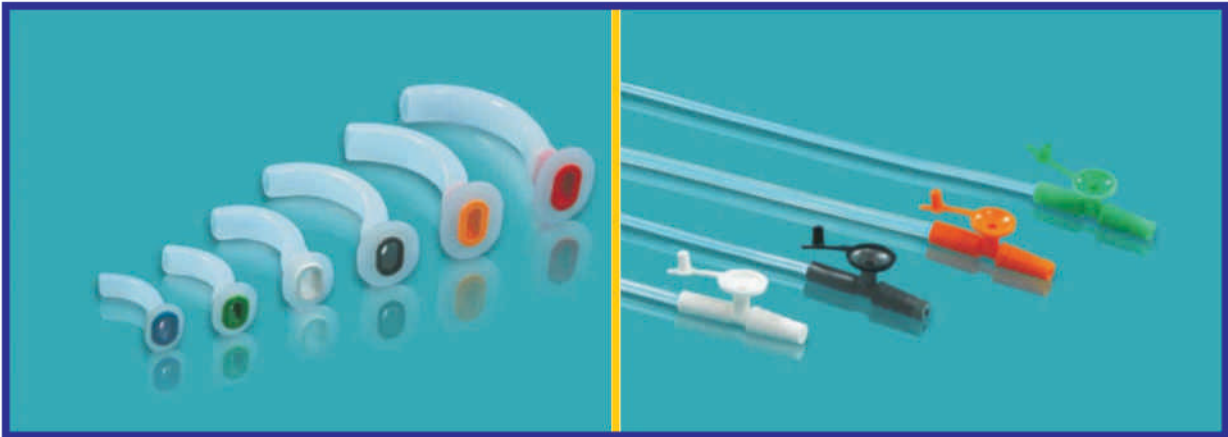

Colour Code	Blue	Black	White	Green	Orange	Red	Yellow
Size FG	8	10	12	14	16	18	20

Nova Oxygen Mask

Nova Guedel Airway
[Plastic]

Nova Suction Catheter
[With thumb Control]

- Designed to maintain an unobstructed Oro-Pharyngeal airway during or following general anesthesia and in patients who are unconscious for other reasons.
- A traumatic soft-rounded edges.
- Stepless airway path for easy cleaning.
- Manufactured from EVA to achieve extra soft surface finish.
- Bite blocks are colour coded for easy identification.
- Sterile / Disposable / Individual Printed box Packing.
- Suction catheters are suitable for removal of secretion from mouth oropharynx trachea and bronchial tubes.
- Atraumatic, soft & rounded open tip with one lateral-eye.
- Manufactured from non toxic non irritant medical grade PVC.
- Provided with T type vacuum control valve with thumb control for proper maneuvering.
- Frozen surface tubing for smooth intubation.
- Colour coded for easy identification.
- Sterile / Disposable / Individual Packed.

Nova Suction Catheter [NK-60 & NK-61]

Nova Urothelial Catheter [K-90 & K-91]

- Suction catheters are suitable for removal of secretion from mouth oropharynx trachea and bronchial tubes.
 - Distal eye is open with one lateral eye.
 - Frozen surface tubing for smooth intubation.
 - Manufactured from soft non toxic non irritant medical grade PVC.
 - Color coded for easy Identification.
 - Sterile / Disposable / Individual Packed.
- Most suitable for removal of secretion from mouth, trachea & bronchial tubes.
 - Proximal end is fitted with (Universal) funnel shape connector for connection to standard suction equipment.
 - Manufactured from Non toxic, Non irritant PVC.
 - Funnel shape connectors are color coded for size identification.
 - Provided with x-ray opaque line throughout its length.
 - Sterile / Disposable / Individual Packed.

Nova Endotracheal Tube [Cuffed]

- High volume, low pressure cuff, maintains seal throughout ventilator cycle.
- X-ray detective line available.
- Thermosensitive PVC allows the tube to soften at body temperature to conform to airway anatomy.
- Non-toxic, medical grade PVC material; Clear, soft and smooth.
- Clear PVC tube with visible markings for easy observation.
- Murphy Eye smoothly formed to allow ventilation in the event of obstruction of the end of the tube during insulation;
- A full range of standard sizes to meet most of your requirements.
- Sterile / Disposable / Individual Packed.

Size	4	4.5	5	5.5	6	6.5

Super Nova L.P. Spinal Needle

- Aggressive anesthetic distribution upon injection.
- High flow rate enables faster cerebro spinal (CSF) flashback.
- Spinal needle provided exceptional control when penetrating the dura.
- Suitable for spinal anaesthesia.
- Clear polycarbonate hub offer easy visualization of CSF or blood.
- Sterile / disposable / individual packed.

Surgery

Nova Baby-vac Set [Mini Close Wound Suction unit]

- Curved Needle with matching catheter.
- X-ray opaque line provided throughout the length of catheter.
- Closed wound suction unit with bellow chamber of 50ml, capacity.
- Sterile / Disposable / Individual Printed box Packed.

Nova Medi-vac Set [Close Wound Suction Unit]

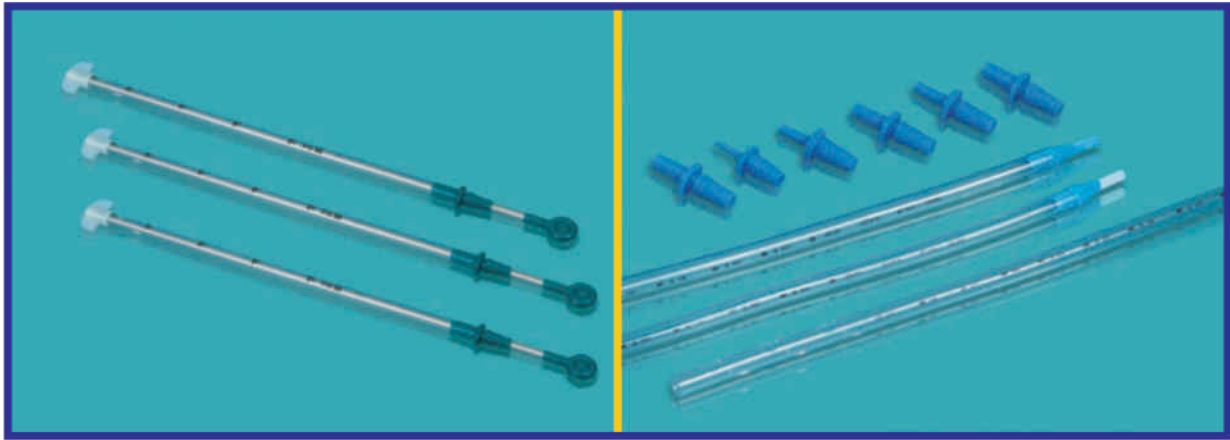

- Radon drains catheters are provided with radio opaque line and satin smooth eyes.
- Connecting tube is kink resistant and is provided with additional strength to withstand the suction.
- Available in different sizes with matching size curved needle to meet moderate to heavy drainage needs.
- Suitable to offer surgeons and doctors an effective device for closed wound drainage under negative pressure post operatively with the option to use one catheter or two catheters simultaneously.
- Easy to use by one person depress the chamber to active the suction of bellow unit.
- Connecting tube with clamp & " Y " connector curved needle with matching catheter & spare perforated catheter.
- Sterile / Disposable / Individual Printed box Packed.

www.novamedicaldevices.com

Chest Drainage Catheter
[With Trocar]

- Catheter is provided with trocar for easy penetration, placement and handling.
Two lateral eyes for efficient drainage.
- Proximal end fitted with tapered connector for easy connection to the drainage bottle/ bag.
- Made from non-toxic medical grade P.V.C. tubing.
- Marking on catheter is provided at 5, 10, 15, 20, cm from the distal end to help ascertain. Radio opaque line on catheter.
- Sterile / Disposable / Individual Packed.
- Catheter manufactured from medical grade PVC mounted on trocar for easy penetration, placement and proper handling.
- Proximal end is fitted with tapered connector for easy connection to drainage bottle.
- Large smooth drainage eyes for efficient drainage
- Specially designed for rapid non operative pleural and chest drainage.
- Provided with radio opaque line.
- Flat handle facilitates easy maneuverability
- Sterile / Disposable / Individual Packed.

Chest Drainage Catheter

[With Trockar]

Chest Drainage Catheter

[With Trockar]

www.novamedicaldevices.com

- Makes it easy to observe and measure the collected drainage content during surgery.
- Facilitates safe Retrograde Technique. Is provided with hanging at a higher position as compares to the common collection chamber allowing the collection of drainage without giving rise to any inconvenience.
- Easy to read graduation helps to determine the drain volume precisely.
- Chest Drainage Bottle is a single use disposable unit which is designed to forward the collected Drainage into a collection chamber by the liquid static suction effects.
- Suction port is provided to fill water.
- Kink resistant large bore tubing facilities unrestricted flow.
- Sterile / Disposable / Individual Packed.
- Ambulatory Chest Drainage System with integral tubing.
- Syringe for primary flutter valve.
- Kit Includes all the essentials to perform chest drainage and permit the safe mobilisation of patients when under water seals cannot be established or are not practical.
- Inner sheet sterile field.
- Sterile / Disposable / Individual Packed.

Gastroenterology

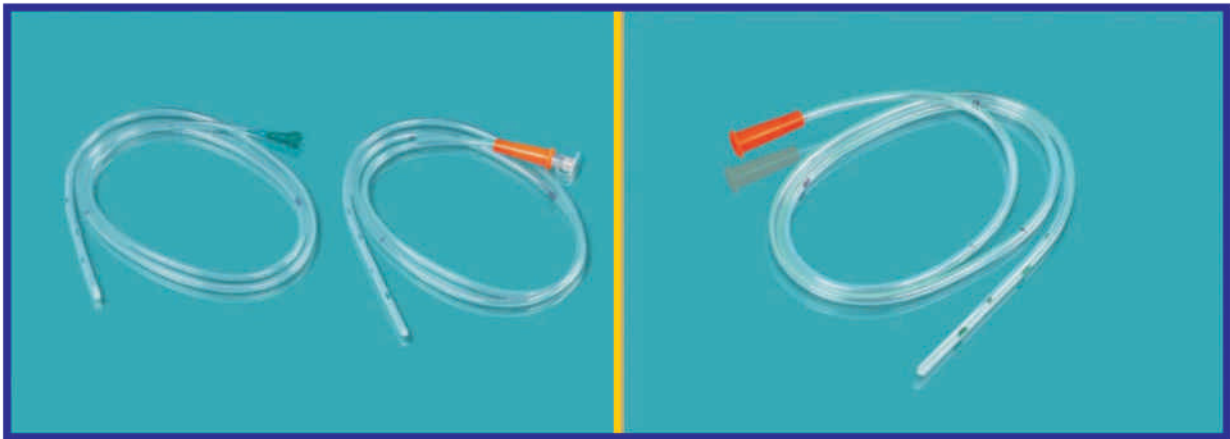

29

Nova Ryle's Tube

Nova Stomach Tube

www.novamedicaldevices.com

- Specially designed for naso gastric introduction for nutrition and aspiration of intestinal secretion.
- Distal end is coned with corrosion resistant stainless steel balls sealed into the tube, to assist the passage of the tubing during intubation.
- The tube is marked at 50cm 60 cm & 70cm from the tip for accurate placement.
- Manufactured from non toxic, non irritant PVC.
- Four lateral eyes are provided for efficient aspiration and administration.
- Super smooth low friction surface facilitates easy intubation.
- Provided with X-ray opaque through out the length.
- Sterile / Disposable / Individual Packed.

- Distal end is coned with four lateral eyes.
- Low friction Medical grade PVC reduces the incidences of nasal discharges.
- Proximal end is provided with universal funnel shape connector.
- Designed for gastro-intestinal feeding and aspiration.
- Radio opaque line throughout its length helps checking the position radiologically.
- Marked at 50cm, 60cm, 70cm from the tip for accurate placement.
- Sterile / Disposable / Individual Packed
